We hired AAM to reroof a sunroom with a difficult pattern. They did a wonderful job, were very professional and went above and beyond what was in the contract to do. They did it all in a timely manner and cleaned up all the trash. We will definitely hire AAM again in the future and recommend them.

Andy's bid on my hail-damaged roof came in much lower than the big name company's bid, and I was completely satisfied with the work. Yes, I would recommend AAM Roofing to friends.

I contacted AAM to install a roof. They promptly provided a very competitive estimate with proper proof of insurance and a no money down (no worries) guarantee. The job was completed in a day. All the debris was cleaned up and care was taken not to damage the surrounding landscape. They installed extra metal and higher definition materials that makes it look distinctive. At the time of payment there were no surprises and no extra charges. Highly recommend!
